

Logistics Operations Runbook

Purpose

This runbook defines the standard operating procedures for inbound logistics, warehouse operations, transportation management, inventory transfers, and emergency response activities.

1. Inbound Logistics Process

- 1. Receive Advance Shipping Notice (ASN).**
 - 2. Verify purchase order against shipment.**
 - 3. Perform quantity verification.**
 - 4. Conduct quality inspection.**
 - 5. Record goods receipt in inventory system.**
 - 6. Store inventory in assigned warehouse location.**
-

2. Outbound Logistics Process

- 1. Receive customer order.**
 - 2. Allocate inventory.**
 - 3. Generate picking list.**
 - 4. Pick and pack products.**
 - 5. Perform quality verification.**
 - 6. Dispatch shipment.**
 - 7. Update shipment tracking.**
-

3. Warehouse Transfer Process

Internal transfers are initiated when:

- Warehouse inventory falls below safety stock.**
- Regional demand exceeds forecast.**
- Storage optimization is required.**

Transfer approval requires Warehouse Manager authorization.

4. Transportation Management

Approved transportation providers:

- BlueLine Logistics
- Rapid Freight
- National Express Cargo

Shipment status must be updated every 12 hours.

5. Emergency Logistics Procedures

Emergency logistics are activated when:

- Supplier delays exceed 7 days.
- Critical inventory falls below minimum stock.
- Transportation disruptions occur.
- Natural disasters impact warehouse operations.

Immediate actions include:

- Expedite shipments.
 - Reallocate inventory.
 - Engage alternate transportation providers.
 - Notify executive leadership.
-

6. Carrier Escalation Matrix

Severity Response Time Owner

Low	24 Hours	Logistics Coordinator
Medium	8 Hours	Logistics Manager
High	4 Hours	Supply Chain Director
Critical	Immediate	Executive Operations Team

7. Logistics KPIs

- **On-Time Delivery**
 - **Transit Time**
 - **Freight Cost per Shipment**
 - **Shipment Accuracy**
 - **Carrier Performance**
 - **Warehouse Transfer Time**
-

8. Business Continuity

In the event of major disruptions:

- **Activate alternate warehouse.**
 - **Switch to approved backup carriers.**
 - **Notify customers of shipment delays.**
 - **Conduct daily recovery review meetings.**
-
